SUMMARY

Dedicated and adaptable professional with a Master's degree in Computer Science and Engineering (M.E) and experience in programming, database administration, and web development. Having worked in small-scale companies, I am eager to restart my career in web development, leveraging my expertise in front-end and back-end technologies, responsive design, and database optimization to build practical and user-friendly web solutions.

EXPERIENCE

Database Analyst   Oct '18 — Dec '22

Sakthi Technologies   Tiruchirappalli

Created a software for college and school libraries using VB.NET with MS Access, streamlining library management and automation.
Ensured data integrity and performed routine troubleshooting to minimize downtime.
Developed customized reports for improved data insights and operational decision-making.
Worked collaboratively with teams to enhance efficiency in data workflows and reporting.

Programmer/Database administrator   Oct '15 — Sep '16

Thassim Beevi Abdul Kader college for Women   Kilakarai, Ramanathapuram.
